

Forest Stewardship Program Program Narrative Guidelines

For Stewardship, Reforestation, Nurseries and Genetic Resources, and Forest Resource Management grant narrative, please use the standard OMB Requirements Narrative Template with special emphasis on additional information addressing targets.

We also include specific additional targets as needed. For example, in the past we have required language referring to State's completion of revised 5 year strategic plans.

Information is required that addresses all of the following targets. Accomplishments not anticipated in a given Program Area, show the number zero as a response is needed for all targets.

Program Activity	Number	Acres	MBF
Forest Stewardship (FSP):			
Stewardship Plan			
Stewardship			
Forest Resource Management (FRM):			
Non-Stewardship Management Plans			
Management Plans			
Regeneration
