

## Appendix C

### Volume and Number of Tree Species Groups in the Chesapeake Bay Watershed

<i>Species Group</i>	<b>Volume</b>		<b>Number</b>	
	<i>Cubic Feet (millions)</i>	<i>Percent of Total (%)</i>	<i>Trees (thousand)</i>	<i>Percent of Total (%)</i>
White oaks	7,650	17.1%	968,950	7.1%
Red oaks	6,630	14.8%	847,300	6.3%
Red and silver maple	5,310	11.8%	2,135,350	15.8%
Loblolly, shortleaf, and other yellow pines	4,160	9.3%	1,019,200	7.5%
Other eastern hardwoods	4,140	9.2%	3,784,290	27.9%
Yellow poplar	3,650	8.1%	508,920	3.8%
Sugar and black maple	2,370	5.3%	549,290	4.1%
Ash	1,660	3.7%	476,310	3.5%
Eastern hemlock	1,570	3.5%	320,750	2.4%
Eastern white and red pines	1,530	3.4%	308,700	2.3%
Hickories	1,520	3.4%	433,720	3.2%
Sweetgum	1,080	2.4%	498,440	3.7%
Beech	980	2.2%	500,000	3.7%
Basswood	610	1.4%	57,530	0.4%
Tupelo and black gum	570	1.3%	735,560	5.4%
Cottonwood and aspen	450	1.0%	119,860	0.9%
Other eastern softwoods	430	1.0%	194,600	1.4%
Yellow birch	220	0.5%	45,760	0.3%
Black walnut	160	0.4%	35,000	0.3%
Spruce and balsam fir	70	0.1%	15,790	0.1%
Cypress	50	0.1%	450	0.0%

USDA Forest Service, FIA 2005

List of tree species in each species group is available at
